Future Land Use Survey - CLOSED Yadkin County Comp Plan	**122** Contributions

Planning Our Future Means Making Choices

As a part of the Land Use Plan Update the County needs to determine the appropriate location for various types of land uses, but no single area can be everything at once. Preserving farmland protects our rural heritage and industry, but we also need space for jobs, local shops, and housing. These conflicts require tradeoffs. We need your guidance on what matters most in each part of Yadkin County.

For each map area, please **select your top 2 priorities** among the four choices by placing a check mark (✓):

	Map Areas ↓	Residential Growth	Farmland Preservation	Commercial Development	Employment Centers
1	In or Near Towns				
2	Economic Development Areas				
3	Along Major Highways				
4	Rural Activity Centers				

Residential Growth: Neighborhoods, subdivisions, and new housing.
Farmland Preservation: Production agriculture, family farms, open spaces, and rural areas.
Commercial Development: Retail shops, dining, grocery stores, and everyday services.
Employment Centers: Industrial parks, logistics, manufacturing, and major employers.
